**Nicole Lawrence, PhD**

*Research Scientist, Senior, Center for Child and Family Policy,  
Sanford School of Public Policy, Duke University*

This course will explore contemporary theories and empirical research that address issues of equity and early childhood development from birth to age 8.

- Identify and explain multiple ways in which early childhood and other systems (e.g., public health, housing, social services) have perpetuated inequality
- Evaluate the policies related to early childhood as it pertains to everyday life
- Create analyses of how racial inequality is operating in other early childhood related settings and situations
- Investigate the potential implications of ideas for future practice
